Vehicle Look Up

Model	Year	Activation Codes	
		1	2
Eclipse	2006-2012	241	242
Endeavor	2006-2008	241	242
Endeavor	2010-2011	241	242
Galant	2006-2012	241	242
Mirage	2014-2015	241	242
Mirage	2017	241	242
Outlander	2007-2015	241	242

Example:

ACTIVATION CODE 241

Lock button 2X:  

Unlock button 4X:    

Trunk button 1X: 

PAIRING INSTRUCTIONS

1. Press PANIC and FUNCTION 1 at the same time to enter device setup. The LED should turn on.
2. Once in setup mode, enter your code from the vehicle look up list with the following sequence: LOCK, UNLOCK, and TRUNK for the specified number of times. Please see illustrated example. If your vehicle code is 241 you would press the buttons in their corresponding order the indicated number of times.
3. Press PANIC and FUNCTION 1 at the same time again to exit device setup. The LED should blink once and turn off. If the LED flashes 3 times after the PANIC and FUNCTION 1 are pressed, an invalid code was entered and the process will need to be repeated starting at Step 1.
4. Program exactly like an original key.

Note: SKUSA recommends programming the remote portion of this RHK before programming the transponder portion. If activation code 241 does not pair to the vehicle, use activation code 242.
